At the end of Subtitle A, add the following:

Sec. ____ . Cybersecurity at Wastewater Treatment Systems

(a) In General.—Not more than \$50,000,000 shall be made available to improve the cybersecurity of wastewater treatment systems and networks. The Secretary of the Environmental Protection Agency may use the amount under this section in any way the Administrator determines appropriate, including—

- (1) entering into an agreement or providing funds directly to a wastewater treatment system; or
- (2) entering into an agreement with a company that provides computer systems or network services, or other similar services to multiple wastewater treatment systems.
