HONOLULU, HI**

Prospectus Number: PHI-0011-HO20
Congressional District: 01

FY 2020 Project Summary

The U.S. General Services Administration (GSA) proposes a repair and alteration project for the Federal Building portion of the Prince Jonah Kuhio Kalanianaole (PJKK) Federal Building and U.S. Courthouse complex located at 300 Ala Moana Boulevard in Honolulu, HI. The proposed limited-scope project in the Federal Building will address elevators, mechanical and electrical upgrades, restroom upgrades, and fire and life-safety systems that are in need of replacement.

FY 2020 Committee Approval and Appropriation Requested¹

(Design, Construction, and Management & Inspection).....\$39,651,000

Major Work Items

Elevator upgrade/modernization; fire and life-safety improvements; restroom upgrades; mechanical, electrical, plumbing, and equipment replacement (cafeteria)

Project Budget

Design	\$3,114,000
Estimated Construction Cost (ECC).....	34,179,000
Management and Inspection (M&I)	<u>2,358,000</u>
Estimated Total Project Cost (ETPC)	\$39,651,000

Schedule

	Start	End
Design and Construction	FY 2020	FY 2024

¹ GSA submitted Prospectus No. PHI-0011-HO12 (full modernization of the Federal Building). The prospectus was approved by the Senate Committee on Environment and Public Works on December 8, 2011, for \$198,650,000, but did not receive approval by the House Committee on Transportation and Infrastructure, and did not receive appropriations. For FY 2020, GSA is requesting approval and funding of a more limited scope project for the Federal Building.

Prospectus Number: PHI-0011-HO20
Congressional District: 01

Building

The PJKK Federal Building and U.S. Courthouse is located at 300 Ala Moana Boulevard, Honolulu, within the Hawaii Capital district and on the outskirts of the central business district. The two-building complex, totaling 864,948 gross square feet, was constructed in 1977 on a portion of old Fort Armstrong. These reinforced concrete buildings, with cast-in-place concrete masonry and glass curtain walls, consist of a nine-story Federal building and a five-story courthouse.

Tenant Agencies

Congressional offices; Administrative Office of the U.S. Courts; Department of Agriculture; Department of the Interior; Department of Justice; Department of Labor; Department of the Treasury; Social Security Administration; Department of Veterans Affairs; National Labor Relations Board; Environmental Protection Agency; Department of Transportation; Department of Homeland Security; Small Business Administration; Department of Health and Human Services; Department of Defense; and GSA

Proposed Project

The proposed project includes limited replacement or upgrade of some of the outdated and deteriorating building systems that have exceeded their useful life and are in imminent need of replacement, including elevator repair/modernization; fire and life-safety device and sprinkler-head replacement; the downsizing of the cafeteria and replacement of its mechanical, electrical, and plumbing systems and equipment; and restroom flood drain installation and renovations needed to comply with the Architectural Barriers Act Accessibility Standards.

Major Work Items

Elevator Upgrade/Modernization	\$10,407,000
Fire and Life Safety Upgrades	8,818,000
Mechanical, Electrical, Plumbing & Equipment Replacement in Cafeteria	7,783,000
Restroom Drains and Accessible Partitions	<u>7,171,000</u>
Total ECC	\$34,179,000

Prospectus Number: PHI-0011-HO20
Congressional District: 01

Justification

The PJKK Federal Building and U.S. Courthouse complex houses about 70 agencies and serves as a main Federal location that covers Hawaii and Southern Pacific areas. Prior to 2008, many of the PJKK Federal Building and U.S. Courthouse's existing building equipment and systems were original to the buildings and were near the end of their useful service. Through funding provided by the American Recovery and Reinvestment Act of 2009, a full modernization and renovation design was completed for both buildings in the complex, but a major renovation of only the courthouse was completed. The Federal Building has not undergone a major renovation since its construction in 1977.

Elevator work will replace equipment that has met its useful life and will now meet current safety standards. The fire sprinkler system does not have rapid response heads that are now required, and the fire life safety devices do not meet current safety codes. The mechanical, electrical and plumbing work will be part of the downsizing of the cafeteria, saving energy costs, and its failing and unsafe building systems and equipment will be replaced. Restroom floor flood drains will be installed (a toilet fixture failure caused extensive water damage due to a lack of floor drains in the original restrooms), and partition work will be completed on all floors, except on the recently renovated second floor, to meet current accessibility standards.

Summary of Energy Compliance

This project will be designed to conform to requirements of the *Facilities Standards for the Public Buildings Service*. GSA encourages cost effective design opportunities to increase energy and water efficiency above the minimum performance criteria.

Alternatives Considered (30-year, present value cost analysis)

There are no feasible alternatives to this project. This is a limited scope renovation, and the cost of the proposed project is far less than the cost of leasing or constructing a new building.
