

July 22, 2020

The National Association of Counties and the 3,069 counties we represent thank Chairman DeFazio, Ranking Member Graves and the entire Transportation and Infrastructure Committee for your recent work to advance a new water resources authorization. As you know, counties often partner with the Army Corps to improve local water infrastructure and rely on the certainty provided by these consistent, two-year authorizations. Unlocking the Harbor Maintenance Trust Fund is a major priority for counties, and we appreciate its inclusion in H.R. 7575. Again, thank you for your bipartisan effort to deliver this package that will support local infrastructure and enhance economies.
