

May 8, 2024

The Honorable Sam Graves
Chairman
Committee on Transportation
and Infrastructure
U.S. House of Representatives
Washington, DC 20515

The Honorable Rick Larsen
Ranking Member
Committee on Transportation
and Infrastructure
U.S. House of Representatives
Washington, DC 20515

The Honorable Maria Cantwell
Chair
Committee on Commerce, Science, and
Transportation
U.S. Senate
Washington, DC, 20510

The Honorable Ted Cruz
Ranking Member
Committee on Commerce, Science, and
Transportation
U.S. Senate
Washington, DC, 20510

Dear Chairman Graves, Chair Cantwell, Ranking Member Larsen, and Ranking Member Cruz:

As representatives of various sectors of the general aviation community we strongly urge Congress to pass the bipartisan and bicameral FAA Reauthorization Act of 2024 (HR 3935).

The general aviation industry contributes an estimated \$247 billion in economic output and supports 1.2 million jobs in the United States. Through the network of more than 5,000 public-use airports across the country as well as over 14,700 privately owned landing facilities nationwide, general aviation is an integral part of the transportation system that supports communities across country, especially in rural areas.

The FAA Reauthorization Act of 2024, which includes the first ever general aviation title, will have a positive impact on current and future pilots, aircraft owners and the entire general aviation community.

Passing a five-year reauthorization bill will enhance safety, increase funding for general aviation airports, and modernize our nation's air traffic control system to ensure the United States remains the safest and most efficient air transportation system in the world.

We strongly support the bipartisan and bicameral FAA Reauthorization Act of 2024 and urge Congress to promptly pass this important legislation.

Sincerely,
